Subject: List of Rumanian Sources used by X-2, Bucharest.

Comment: In the operational report of 26 February, 1945, AH-002 states that X-2, Bucharest has 53 "agents". A report of 20 March, 1945 gives a list of 52 names corresponding to 52 symbols in a previous ^{ver} of 12 March. This list includes names of some staff members of X-2, Bucharest but omits others. This would indicate that staff members of X-2 Bucharest are also sources of GRX reports. We have not received any information stating whether or not this is a complete list of sources. Biographical data has been received on a few of these people.
